Catarina Fernandes - up201806854

Item data improvement

- Not enough information in the textual fields to satisfy more complex information needs
- More scraping from products page, retrieving new textual fields:
 - **Description** - long text field, with some of the item's characteristics and catchy features
 - **About** - main points of the product and some details that the buyer should be aware of
 - **More** - multi-valued key-value field that contains the items features
- Extracted main features from the *More* field, to be later used on filtering the results
 - wireless carrier
 - screen size
 - color
 - memory storage capacity
 - cellular technology
 - operating system

Item data improvement: Schema

Information Retrieval Tool Improvements

- Analyze and explore Solr's searching features, like: *Faceting*, *Spell Checking*, *Query Re-Ranking*, *Suggester*, *MoreLikeThis*, and *Pagination of Results*.

- ☒ Faceting
- ☐ Spell Checking
- ☒ Query Re-ranking
- ☐ Suggester
- ☐ MoreLikeThis
- ☒ Pagination of results

IR Tool Improvements - Faceting

- Using *Term Facets*, to return buckets with unique values of a field and their counts
- Need to specify *field* and *limit* parameters in the API
- Applied to *brand*, *wireless_carrier*, *operating_system*, *color*, *screen_size*, *memory_storage_capacity*, *cellular_technology*, for the items, and *country* and *verified*, for the reviews
- Useful to implement filter checkboxes in the UI

```
"facet_counts":{  
  "facet_queries":{},  
  "facet_fields":{  
    "wireless_carrier":[  
      "Unlocked",705,  
      "T-Mobile",226,  
      "AT&T",171,  
      "Verizon",166,  
      "Sprint",34,  
      "Straight Talk",20,  
      "Tracfone",17,  
      "3",12,  
      "Cricket",12,  
      "Boost Mobile",11,  
      "Verizon Wireless",9,  
      "Net10",7,  
      "Simple Mobile",7,  
      "WhatsApp SIM",7,  
      "Virgin Mobile",6,  
      "MVNO",4,  
      "Telcel",4,  
    ]  
  }  
}
```

IR Tool Improvements - Pagination

- Define *start* and *rows* parameters:
 - **start** - set the the current "page", starting in 0, by defining the offset of the documents.
 $\text{start} = \text{page_number} * \text{rows}$
 - **rows** - specifies how many results we want to display per page
- Useful to present the search results in several pages

IR Tool Improvements - LTR

- *“Re-Ranking allows you to run a simple query for matching documents and then re-rank the top N documents using the scores from a different, more complex query”*
- Learning To Rank (LTR) module we can configure the features and the ranking models.
- 2 linear models developed, one for the items and another for the reviews

IR Tool Improvements - LTR

Original query score used in both models

Item's features:

- Rating
- Number of total ratings
- Discount (%)

Feature	Weight
originalScore	0.4
itemRating	0.1

About this product

- Introducing the new A Series. The Samsung Galaxy A11 combines smartphone essentials with the trusted reliability of Samsung. Take crisp, clear photos and videos with our powerful triple lens camera. Enjoy cinematic clarity on our 6.4" edge-to-edge screen.
- 6.4" HD Screen; 1.8 GHz plus 1.8 GHz Octa-Core Processor; Android 10.0; Triple 13MP plus 5MP plus 2MP Rear Cameras/8MP Front Facing Camera; Internal Memory 32 GB (device only); Supports microSD Memory Card up to 512GB (NOT INCLUDED)
- 4G LTE; Wi-Fi Capable; Bluetooth 4.2 wireless technology; GPS Capable
- CARRIER: This phone is locked to Tracfone, which means this device can only be used on the Tracfone wireless network.

Product details

With the Samsung Galaxy A11, you get exactly what you need with the performance and reliability from a brand you can trust. Do more with a long-lasting battery, keep all of your stuff with a 32GB built-in memory, and experience it on a 6.4"HD Screen. Finally, the phone you need to keep connected with friends and family—and at just the right price. With a long-lasting battery, the Galaxy A11 gives you more time to post, talk, text and share with friends and family. Don't worry, keep it all Keep more with 32GB of built-in memory, so you can keep all of your photos, shows, movies and apps, without having to delete to make room. Go edge-to-edge Enjoy a bold, bright viewing experience on a 6.4" screen. With an Infinity Display that goes edge-to-edge, you can see more story before you scroll. Capture the moment The Galaxy A11 lets you make everyday moments special. Take crisp, clear photos with an 13MP rear camera and perfect selfies with the kids on a 8MP front camera.

★★★★★ Ausgezeichnetes Handy, Preis-/Leistung 1A

Ich habe 2 von den 6300ern für meine Frau und mich aufgrund der guten Bewertungen dieses Gerätes bestellt und muss wirklich sagen: erste Klasse! Das Display ist das Beste was ich bisher in Händen hatte,

or: B000MXF29K

★★★★☆ Super Handy

Ich habe das Handy jetzt seit ca. zwei Monaten und ausgiebig getestet, daher erst jetzt meine Rezension. Bin absolut zufrieden und sehr begeistert von diesem Handy (und mittlerweile hatte ich schon einige :))

Retrieval Process - Re-evaluation

- eDisMax Parser
- Same 5 information needs from M2 (only 3 will be presented)
- 3 different system configurations:
 - **S1** - a baseline, filterless system, where all the documents have either Solr's default types, or our custom types but without any filters;
 - **S2** - a system with our complete specified custom schema;
 - **S3** - a system with the schema, with weights where the relevant fields are boosted in the retrieval process and with use of LTR
